Atmosphere

Depth rather than drawing. Each design is built from tonal fields, soft gradation and layered noise, so it reads as air and distance instead of line — and still repeats seamlessly at any size. Mist is weather, Canopy is foliage at three depths, Horizon is land and sky. They take their range from the pattern and ground colours, so a single hue gives you a full tonal scale.

Scale and repeat

Every Atmosphere design is a true seamless repeat. Each page shows the design at its large repeat, with small, standard and large scales below; any repeat from 2 to 52 in can be set. A repeat that divides the 52 in web (52, 26, 17.3, 13 in) matches drop to drop with no part repeat at the selvage.

Scale and colour

Every InkSonics® collection is scalable and colour-definable in the Ink-Tuitive® Studio at www.ink-tuitive.com. The six colourways on each page are starting points: set the repeat, and set ink, ground and accent to any colour or to a supplied chip.
