AN INKSONICS® COLLECTION

Foil

Drawn for the mylar grounds, and drawn the way foil is actually printed — by covering the metal rather than by drawing on it, so the design is what you DON'T cover. Leaf is applied metal: gilded squares, torn schlagmetal, crazed and worn. Worked is metal that has been hit, brushed, etched or left to oxidise. Printed is ink over foil, where the pattern is a resist and the sheen comes through it. Every design carries the same light-dark-light sheen across the sheet, so a wall shifts as you walk past it.

Scale and repeat

Every Foil design is a true seamless repeat. Each page shows the design at its large repeat, with small, standard and large scales below; any repeat from 2 to 52 in can be set. A repeat that divides the 52 in web (52, 26, 17.3, 13 in) matches drop to drop with no part repeat at the selvage.

Scale and colour

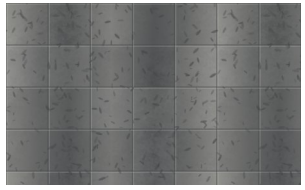

Every InkSonics® collection is scalable and colour-definable in the Ink-Tuitive® Studio at www.ink-tuitive.com. The six colourways on each page are starting points: set the repeat, and set ink, ground and accent to any colour or to a supplied chip.

Specification

Codes read `PRODUCT-COLLECTION-PATTERN-REPEAT-WEIGHT-COLOURWAY`. Put the product code from the table above in front of the code on each page.
