Modular

A tile grammar rather than a drawing. Every cell holds one move — a quarter disc, an arc, a lens, a ring — and the composition is the order they fall in. It tiles by construction, so the repeat is exact at any scale, and it takes flat colour better than anything else in the library: two tones for a Bauhaus register, or pick a palette and the whole grid recolours.

Scale and repeat

Every Modular design is a true seamless repeat. Each page shows the design at its large repeat, with small, standard and large scales below; any repeat from 2 to 52 in can be set. A repeat that divides the 52 in web (52, 26, 17.3, 13 in) matches drop to drop with no part repeat at the selvage.

Scale and colour

Every InkSonics® collection is scalable and colour-definable in the Ink-Tuitive® Studio at www.ink-tuitive.com. The six colourways on each page are starting points: set the repeat, and set ink, ground and accent to any colour or to a supplied chip.
