Watercolors

Wet pigment, bright and translucent. Every design draws from a multi-hue palette rather than the two-tone ink and ground, so colors overlap and mix on the page the way they do on wet paper. Bloom is pigment spreading, Wash is flooded color, Splash is what lands when the brush is loaded. Pick a palette above — the whole collection reharmonises.

Scale and repeat

Every Watercolors design is a true seamless repeat. Each page shows the design at its large repeat, with small, standard and large scales below; any repeat from 2 to 52 in can be set. A repeat that divides the 52 in web (52, 26, 17.3, 13 in) matches drop to drop with no part repeat at the selvage.

Scale and colour

Every InkSonics® collection is scalable and colour-definable in the Ink-Tuitive® Studio at www.ink-tuitive.com. The six colourways on each page are starting points: set the repeat, and set ink, ground and accent to any colour or to a supplied chip.
