# Contour

Iso-lines of a landscape that does not exist. The field behind these is built so that it wraps exactly, which means the contours close around the tile rather than being cut at it — a line leaving one edge arrives at the other at the same height. Contour is survey weight, Band is the heavy sweep, Relief works two weights against each other. Large is where it belongs.

## Scale and repeat

Every design is a true seamless repeat and can be specified at any width from 2 to 52 in. Pages show each design at a standard 36 in repeat, with small (18 in) and large (52 in) shown for comparison.

## Scale and colour

Every InkSonics® collection is scalable and colour-definable in the Ink-Tuitive® Studio at [www.ink-tuitive.com](http://www.ink-tuitive.com). The six colourways on each page are starting points: set the repeat, and set ink, ground and accent to any colour or to a supplied chip.

## Specification

Codes read `PRODUCT-COLLECTION-PATTERN-REPEAT-WEIGHT-COLOURWAY` . Put the product code from the table above in front of the code on each page.

# Every InkSonics® design, your colour, your scale.

Every design in the InkSonics® portfolio, Contour included, is scalable and colour-definable in the Ink-Tuitive® Studio at [www.ink-tuitive.com](http://www.ink-tuitive.com): set the repeat, set the ink, ground and accent, preview it on your elevation, and request a printed sample on the product you are specifying.

Printed samples ship with the full specification code, so what you approve is what is made.
