AN INKSONICS® COLLECTION

Foil

Drawn for the mylar grounds, and drawn the way foil is actually printed — by covering the metal rather than by drawing on it, so the design is what you DON'T cover. Leaf is applied metal: gilded squares, torn schlagmetal, crazed and worn. Worked is metal that has been hit, brushed, etched or left to oxidise. Printed is ink over foil, where the pattern is a resist and the sheen comes through it. Every design carries the same light-dark-light sheen across the sheet, so a wall shifts as you walk past it.

Scale and repeat

Every design is a true seamless repeat and can be specified at any width from 2 to 52 in. Pages show each design at its standard repeat, with small and large repeats shown for comparison.

Scale and colour

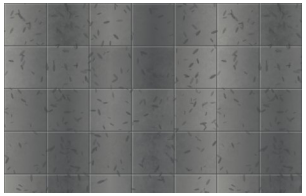

Every InkSonics® collection is scalable and colour-definable in the Ink-Tuitive® Studio at www.ink-tuitive.com. The six colourways on each page are starting points: set the repeat, and set ink, ground and accent to any colour or to a supplied chip.

Specification

Codes read `PRODUCT-COLLECTION-PATTERN-REPEAT-WEIGHT-COLOURWAY`. Put the product code from the table above in front of the code on each page.

SAMPLES AND SPECIFICATION

Every InkSonics® design, your colour, your scale.

Every design in the InkSonics® portfolio, Foil included, is scalable and colour-definable in the Ink-Tuitive® Studio at www.ink-tuitive.com: set the repeat, set the ink, ground and accent, preview it on your elevation, and request a printed sample on the product you are specifying.

Printed samples ship with the full specification code, so what you approve is what is made.
