Foliage

Photographs, not drawings. Each is put through a periodic decomposition so it repeats exactly — no mirroring, no blended seam, no cloned patches. Repeat size is limited by the source: the recommended figure on each design is the largest it will hold at 150 dpi. Beyond that, print coarser or shoot larger.

Scale and repeat

Every design is a true seamless repeat and can be specified at any width from 2 to 52 in. Pages show each design at a standard 52 in repeat, with small (26 in) and large (52 in) shown for comparison.

Scale and colour

Every InkSonics® collection is scalable and colour-definable in the Ink-Tuitive® Studio at www.ink-tuitive.com. The six colourways on each page are starting points: set the repeat, and set ink, ground and accent to any colour or to a supplied chip.

Specification

Codes read PRODUCT-COLLECTION-PATTERN-REPEAT-WEIGHT-COLOURWAY . Put the product code from the table above in front of the code on each page.

Every InkSonics® design, your colour, your scale.

Every design in the InkSonics® portfolio, Foliage included, is scalable and colour-definable in the Ink-Tuitive® Studio at www.ink-tuitive.com: set the repeat, set the ink, ground and accent, preview it on your elevation, and request a printed sample on the product you are specifying.

Printed samples ship with the full specification code, so what you approve is what is made.
